DEFINITIONS

There is no male or female in Christ Jesus (Gal. 3:28). Accordingly, all textual references to Male and female point to spiritual principles and the words man and men, as well as the pronouns, he, his and him, include, woman, women, she and her.

Christ Jesus is the only spiritual male. Accordingly, all powers and principalities other than Christ Jesus are identified as female in relation to him.

The powers and principalities which have incarnated this fallen world (2 Cor. 4:4) are male in relation to fallen mankind, and female in relation to Christ Jesus.

John 7:17-18

¹⁷ If any man will do his will, he shall know of the doctrine, whether it be of God, or whether I speak of myself.

¹⁸ He that speaketh of himself seeketh his own glory: but he that seeketh his glory that sent him, the same is true, and no unrighteousness is in him. KJV

The Matrix Reloaded

**An Edited Transcript of Living Epistles
Message # 533**

THE MATRIX RELOADED PART 1

This evening we are watching the movie entitled, "The Matrix Reloaded." This is the second movie in a trilogy which is three movies. We did quite an extensive commentary on the first movie called, "The Matrix." This is basically the difference that I see from the first, second, and third movies or parts of the trilogy.

The first movie was an action movie. It had a lot of deep spiritual principles demonstrated, but for people who did not understand the deep spiritual principles, there was enough action to make it a runaway best seller.

The second and third parts of the trilogy, "Matrix Reloaded," which we are doing tonight, and "Matrix Revolution," which, Lord willing, we will do some time in the future is much less of an action film. Although there are a couple of very strong action scenes, the spiritual principles were so deep that I had to watch the movie two and three times to really get it myself.

Now, the second and third parts of the trilogy were not a runaway best seller like the first part. I think that the reason why, this is why I am telling you, the reason why is that the message was so deep. There were a couple of colloquies or dialogues, maybe just five or ten minutes in the movie of straight dialogue, especially when the architect speaks, that I could not get it from the movie. I had to wait until the video was available, and I had to put it on replay several times to get what he was saying.

How could the average person go to a movie, see this once and get it? I think the reason that the second and third parts of the trilogy were not runaway best sellers is because the spiritual principles were so deep that the average person could not comprehend them. It is a very exciting trilogy. Tonight we will be watch the movie, the second part of the trilogy. I will be stopping the movie to make comments. For the people listening to the tape you can try it just by listening to the tape, or you can rent the video if you want to. I will do my best to describe the scene that I am commenting on before I comment on it, so that anyone that wants to watch the movie along with us can relate to it. That is what we are going to do.

We are going to go off tape now, and the movie starts with an action scene of Trinity entering into the Matrix with a bang. If anyone has a question, if there is anything that is happening on the screen that you do not understand, just raise your hand and we will stop the tape, and I will answer you. In the absence of anyone raising their hand, I will stop the tape when I feel that the movie requires an explanation. Please feel free to raise your hand, and we will stop the tape to answer any question that you have.

Just in case there is somebody listening to the tape that did not see "The Matrix," Part 1, or has not listened to

our commentary on "Matrix" Part 1, let me tell you that the movie is about the human race being enslaved by machines. The Matrix is a computer-generated society, and a computer-generated world, which is supposed to exist...well let me not say it that way.

The machine world has captured the human race and is holding them captive in a generator. The source of energy that the machine world needs is being extracted from human beings who are actually trapped and bound with all kinds of wires and cables connected to them.

In order to make this existence tolerable for humanity, the machine world has generated this computerized fantasy or this computerized illusion whereby the people are captured and bound into pods, and this house that they actually think that they are living in, in a world that looks like the world that we are living in now.

Of course, there is a measure of truth to this. This is Satan's world. Satan has incarnated this world, and she feeds off of the energy of the people of this world. If you want to hear more about that you need to listen to some more of the other tapes that have come forth in this ministry. Satan and all of her hoards feed off of humanity. Just like mosquitoes that bite us and take little sips of our blood, they feed off of us. There is a spiritual truth to this movie, and that is why we are analyzing this movie because of the spiritual truth that is present here.

That is what the Matrix is, and there are a group of people who have escaped from the Matrix. They have pulled out all of their plugs that kept them plugged into these pods where they were continuously drained of their energy. They have escaped, and they have a city. The people that have escaped have a city. It is called Zion.

There is a war between the machine world and humanity. The principle that you will see emerging in this movie is that the only way the world is going to survive, both the world of humanity and the world of the machine, is that if the two worlds make peace and join with each other and work together for a better society. That is the underlying message of the movie.

Right now, the machine world has suppressed humanity, continually using and abusing, and humanity is fighting back. The hero is a man called Neo, he is the one. There is a Messiah principle running through the movie. He is called the One. It is prophesied that he is going to save humanity and the whole world from utter destruction. Neo has a lover, her name is Charity, and they love each other desperately. It was prophesied...did I say Charity? Trinity, her name is Trinity. It is prophesied that Trinity would marry a dead man. In fact, Neo was briefly dead. Trinity's love raised him from the dead. This a theme I have seen in several modern movies or recent movies that human love can raise from the dead.

Only the love of Jesus Christ can raise anyone from the dead.

There is a computer program called "Smith" who manifests as a man, a humanoid, not a man, someone in a human form, a male in a humanoid form that is the arch enemy of Neo who is the one who is the Savior of humanity.

We have two characters that look human, Neo and Smith. Smith is a computer program, he is not human. We will see throughout this movie several human- looking people. Of course, they are actors, they are humans. They are human- looking people that are computer programs.

We are talking about a level of computer technology that is so sophisticated that it can produce a program that just generates a human being that you can never tell that they were a human being. Is everybody okay with this?

The machine world is producing this whole illusion of a society that looks like our society. I told you about Neo, I told you about Trinity, I told you about Smith, the computer program, and there is the Oracle. She is a woman that turns out to be a program, but they did not know that she was a program in the first part of the trilogy.

They call her the Oracle. She is the one that prophesies that the one would come and deliver humanity. Another hero, Morpheus, I cannot re-teach the whole Matrix, this is just a synopsis. He believes in Neo, he believes in the prophesy, he believes in the Savior, and we see that Neo could not believe that he was the one. In our terms, he could not believe that he was the son of God, he would not believe that he had supernatural powers, but found out that he did have supernatural powers in the first movie.

As this movie starts we see Neo dreaming, he is having a nightmare, what we just saw where I stopped the movie. That was Neo's dream, he was having a nightmare. In this nightmare, Trinity, his immortal love was in a battle with an agent. They are shooting at each other. Remember, an agent is a computer program that is really stronger than the humans.

Let me make that point. The machine world is stronger than the humans. Even a collective group of humans fighting together, the machine world is stronger.

Neo was having a nightmare that Trinity was falling, that she was shot, and severely wounded. For those of you that are here with me, or watching the movie, Neo just woke

up, you see him in bed with Trinity. Of course, they are in fornication. We are looking at this movie to glean the spiritual principles. This is Hollywood and they are in fornication. Neo wakes up, and he is very disturbed because he sees that woman that he loves desperately in a dream falling and severally wounded, and he does not want to tell her. He is deeply disturbed. Are there any questions before we go on with the movie?

After Neo wakes up from his dream the scene changes, and we see Morpheus, one of the military commanders that believes in the prophesy. Now, there is a conference of all the war ships and the leaders. Zion, which is under the earth is attacked. The sentinels which are a type of machine are burrowing down and are seeking to destroy Zion. Morpheus announces, before he says "deliverance is at hand, but before deliverance can be accomplished the Oracle must be consulted. We see that what he is talking about is some of his group, some of the leaders going into the Matrix to consult the Oracle.

At this moment, Smith the program that is opposing the free human being is approaching this meeting place and about to crash in and get into a fight with Neo. We have a question over here.

COMMENT: Actually you have explained it.

PASTOR VITALE: Praise the Lord we will go on with the movie.

Apparently from what Morpheus is saying, the military of Zion, the commander has commanded the pilots of these ships to leave this area. Although I do not recall hearing that. Morpheus says that they cannot go forward with the deliverance, or what they have to do for the deliverance to come, unless the Oracle is consulted.

Morpheus says he would like one ship to remain behind while all the others go into the Matrix to consult the Oracle. Morpheus is challenged by all the other pilots who say, "We have been commanded to evacuate this area." Morpheus says, "No, one ship must remain behind just in case the Oracle tries to contact us here."

We see a hero here that is going beyond the direct command, and that is such a dangerous principle, because I know that the Lord has led me to do things in the church world that would be considered rebellion, and it was the Lord. The bottom line is that the spirit of God in you rules. The problem is, are you really sure that it is the spirit of God? We all at some point have to come to a place where we rise above instruction that is not for the benefit of all. It is such a problem because on the surface this is supporting rebellion.

We had a situation in the United States Military recently, where a commanding officer in Iraq broke the rules, he did something he should not have done. What he did saved his men, and he choose to do it. He was disciplined by the military. In this situation, if he obeyed orders his men would have died. The man sacrificed his whole career, now he is out of the military. He almost lost his pension, but we thank God that he did not lose his pension. The bottom line is that he lost his whole career to save his men by breaking the rules.

As human beings we are challenged all the time to know when to break the rules and when not to break the rules. If you are in a ministry and the Pastor tells you to commit suicide, you do not obey authority. The bottom line is that we all have to grow up, find out how to recognize our God and cling to Him. Learn the rules of communication with God. For example, silence means "no." You have to learn when the Lord sends you to somebody and who to

submit to. You are to find out how the proper method is if you think they are doing something wrong.

All of this is taught here, and it is very hard to understand all of this. I cannot deny that certain situations exist in the world where authorities must be opposed.

Of course, this whole concept of opposing authority started after Hitler's Germany where so many of those military officers said, "Well, I was just following orders." They were tried and found guilty in Nuremberg, because you do not follow your commanding officer when he is obviously telling you to do things that are morally wrong. What is the message here? We have to stop being children which is your problem, and do everything that the law says even if it is completely pointless or destructive or does not make any sense. Or you are misinterpreting the Law, let me put it that way.

Neither are we to be in rebellion. We are to have a strong relationship with the Lord that we can submit to the God-given authority that He puts us under. In the event that, that God-given authority, which is just mortal, goes wrong, because of our relationship with the Lord, we can overcome the error of the authority in that event that, that happens. Is everybody okay with what I just said? On with the movie.

Someone has just come to the door, and this person sounds like he has the intonation in his voice of an agent. He said to the guy at the door, "I am here to see Neo, because Neo set me free." The object that he passed through the door was the ear plug by which this agent received instructions from the higher machine mind.

What we have here is a program that has been the enemy of Neo and all of the free humans saying, "Let me in to your house, I am no longer programmed. I am not longer

attached to the machine world, Neo set me free and I want to join the humans in Zion."

If you are a Star Trek fan, we see this principle in the race called the "Borg." Captain Picard and the crew on the Enterprise initially set one of the Borg's free. The Borg is a humanoid race that is similar to... that lives like insects, their space ship is a hive, there is one group mind; everyone is programmed to do their part. There is no individual thought. The enterprise crew were the first ones to set one of the Borg's free. Their mind was separated from the group mind so that they can be an individual.

We see this program, Smith come knocking at the door saying, "Let me in. I want to join you. Neo set me free. Here is my ear plug, this is my proof that I am not longer plugged into the machine world." As you see, when he gets through the door that he is really the enemy of the humans. Any questions?

Please note that the agent referred to Neo as an anomaly. An anomaly is something that should not be there. What the agent meant by that was in this prefect world, the machine world created called The Matrix, there is something that is doing, something that is not in the program. It is anomaly, it is an unknown. It is something that should not be there.

What you just saw was Neo taking off, flying with supernatural powers. In The Matrix one, Neo acquired supernatural powers and one of those powers is an ability to fly through the air like Superman, which I believe symbolizes spiritual power and the spiritual travel. Any questions?

In the next scene, you see the agent that initially appeared to be defeated by Neo. Neo chased the agent, then

took off like Superman in great victory and superpower. You see one of the agents that was defeated walking around the corner and meeting someone that looks just like him. The first agent says, "It is happening just like before." The second agent says, "Not quite like before." What is happening is that agent Smith is reproducing himself.

As you will see later on in the movie, he is reproduced, or he reproduced himself millions of times over.

Now, this is what is happening with Leviathan and Satan. This is what is happening when we see the human race that has increased into so many human beings. This is the expansion of Satan and Leviathan in the earth. Now all human beings look different, we each have different facial features, and different characteristics.

This movie is making a spiritual point. This agent Smith increases into millions and trillions of other programs that look exactly like him. Spiritually speaking, all human beings look alike. We have minor variations, but the principle behind it is that the Serpent has increased to... how many do we have a couple of trillion people on the earth? Everybody okay? Any questions?

We are in the scene where Nebuchadnezzar, Morpheus' ship, has returned to Zion. We see a young man running up to Neo, with, if you can see it, obvious idolatry for Neo. Neo is very embarrassed and subdued.

What we see here is very interesting because Neo, if we want to relate him to what the church is going through today, at least the level of the church that we are in, he is a son of God that has manifested on some level. He is still imperfect, but he has supernatural powers, he is flying through the sky. Apparently, he was at least the vessel that

was used to bring this young man out of bondage into the safety of Zion.

The young man is idolizing him, and Neo is uncomfortable with that idolatry. This is something that the people in the ministry have to deal with. If you do any good for people, the tendency is for them to idolize you. For this reason, I know the Lord has told many ministers, and I am one of them, that it is important that you hear my testimony about my weaknesses, and the things that I have done wrong. It helps you to not idolize me.

What is interesting is the whole Messiah overtone of this movie. Not only the Messiah overtone but what touches me is that he is a human, he is still very much in his humanity, and there are some very real expression of what we will all have to go through as God does more and more miracles through us.

This is how people are going to be behaving. We are going to have to be able to deal with it, because we do not want to fall ourselves. I just wanted to comment to you on that. Any more questions?

We see Neo and Naomi getting off of the elevator, all of the people waiting for Neo. This is the scene of Messiah, all of the people there looking for him to heal them and to take care of their children. We see the Messiah motif again, and Neo is very uncomfortable with it. Apparently, what I gather from that is his powers are not complete. Sometimes he can help people and sometimes he cannot. He is very overwhelmed by the burden, which a lot of ministers feel that way.

I do not know how Jesus felt, He did not tell me in this area. Jesus had the power to help everybody, but He did not always heal everybody. We see that Neo is very human,

and he is taking what happened to him very seriously but also very burdened by it.

I also would like to point out to you that the plugs are missing. When Neo was raised from the dead by Trinity's love, somehow the plugs disappeared. We see that he not only had a change, an internal change, but an external change. His body was healed from the plugs that the machines entered into him. The machines entered in him through these plugs to extract energy from him. No, his plugs are missing. When the movie goes back on and you want to witness this, whenever the camera shows somebody from the behind, I just saw it.

Trinity, you can see a black plug on her neck, but Neo did not have any. I also would like to comment, somebody had asked me about this movie. They had said to me, "What is the significance of all of the black people in the movies?" I want to put that on the tape. I believe the significance is that humanity or the members of humanity that have been liberated, have overcome all racial prejudice, and they have gathered together as humanity vs. the machines. It does not matter what race you are, that is the significance of the director putting all of the black people in the movie.

The Lord told me, I believe that, that was his intentions to show that humanity was gathered together and that everybody was accepted as they fought against the machine. Any questions?

We have just heard Morpheus' speech, we are about to see the celebration of Zion. They are celebrating. I find it very interesting to see the drums beating. It almost looks to me like movies I saw years ago of natives beating their drums for their tribal celebrations. I am not really quite sure

why the producer and the director of the movie would show Zion to be in that primitive vein, although I guess I do understand it.

What you are about to see now, and I am probably going to fast forward it at one point, because what you are going to see now is a mass orgy. The first time I saw the movie I could not really understand why they are showing an orgy in *The Matrix*. I believe what the Lord has told me is that the significance here is that humanity is sexual, whereas the machines are just machines.

The writers, directors, and producers attempt to distinguish between humanity and the machines. They have portrayed humanity in a sexual way that is against the laws of God. Sex is allowed between husband and wife under the auspices of marriage. In this movie, we see that Neo and Trinity are in fornication, and there is nothing said about marriage anywhere in the movie, which is something that if you are looking for it you will notice it in any of these movies with the New Age flair to it, even the whole series of *Star Trek*.

Marriage is not even mentioned, not that it is put down, it is not even mentioned. The only thing that you see concerning couples is that they care for each other, at least you see that much, and they are together. Nothing about marriage, nothing about God, nothing about marriage. We see some kind of clergyman standing up and praying and preaching but no mention of God.

This is what the Lord told me when I questioned Him why an orgy scene would be in the *Matrix*.

This is the concept of the writers, the two brothers that wrote this trilogy. This is their concept of human sexuality, wild drum beating and sexual dancing and

suggestions of an orgy going on. That is their concept of human sexuality. That is what you are going to see, and at some point I am going to fast forward it, because I think it gets offensive. Any questions or comments?

We see two humans entering into the Matrix and the agent Smith comes and touches them with his finger right in the heart center. The agent turns into a duplication of Smith. What is happening is the program called "Smith" is absorbing human beings. He is swallowing them up. He swallowed this human up, and now he became a program and a part of the program, Smith. I told you earlier that is going to multiply into thousands of people.

This is really interesting because that is what is happening in the world today. The Lord Jesus Christ has entered into the world, and He is acquiring and absorbing human beings into His body. Before the Lord Jesus Christ came into the world every human being was a member of Leviathan's body. In this hour the Lord Jesus Christ is in the process of translating us into His body. I wish it was happening that fast but it is not. Any question or comments on what is going on in the movie?

Also, I have to make a correction. I see that Neo still does have his plugs. The movie indicated that he still has his plugs. I stand corrected. Now, the human, the liberated human that was swallowed up into the program Smith answered the telephone. You may recall from Matrix one that the telephone is the vehicle that humans travel into the Matrix and return home. The phone rings, they pick it up, and they are translated into the telephone back into Zion.

The human that was swallowed up into the program Smith now answered the telephone and was translated into Zion. You will see later on in the movie that the agents Smith

has taken of humanoid form, and he becomes a citizen of Zion. Nobody knows that an agent is in the midst of them. This agent who now looks like a human becomes Neo's anti-Christ.

Every particle in the universe has its matching anti-particle. The opposite of Adam is Leviathan. The opposite of Satan is the Spirit of Christ. This agent that now has taken of human form in Zion becomes Neo's anti-particle, but nobody knows about it. He is undercover in Zion. That is what just happened. Any questions or comments?

We see that Neo has entered into the Matrix. He meets, what we find out later on, that this agent man is a program that defends the Oracle. He challenges Neo to a fight. At some point the agent man says, "Enough, I recognize that you are Neo." Neo says to him, "Why did you not just ask me? Why did we have to fight like this?" The program says to him, "You do not know somebody until you fight them."

That is a spiritual principle. I have told you in this ministry many times that I do not know who somebody is until the first conflict. The first conflict, the first time that I do something that hurts you, or the first correction that I have to bring, and I see how you handle yourself, and I see how you handle it. Then I know what I am dealing with. I just wanted to point out that spiritual principle to you.

Also, we saw the agent man illuminated. If you want to know what that meant. It meant that Neo looked at him with x-ray vision to discern who he was. He saw past his external appearance of the man. Any questions or comments?

We just heard a colloquy by the Oracle, who is now revealed to be a program. She is the good aspect in the

machine world. We will later on meet her anti-particle, which is called the Architect. I believe the Oracle typifies Adam, and the Architect typifies Leviathan. There is a competition between two programs in the Matrix. One trying to find peace. I think I am going to roll the tape back and let you hear this again.

The Oracle is looking for peace, because there is a war between the humans and the machines. The Architect is seeking simply to destroy humanity. What the Oracle just said and the counselor said earlier when he was talking to Neo is that the only way for peace is for the two races to work together. This is what the Oracle just said. What she said to Neo is, "You have made a believer out of me." What she was saying is that there really is some decency in the human race.

We see both the human race and the machine race are good and evil. We have a hero. Now this Oracle, she only tells you as much as you can bear. She spoke to Neo about his dream that Trinity was falling. Something that the Oracle said, Neo thinks or thought that the Oracle was telling him that he would have to decide whether or not Trinity lives or dies. The truth of the matter is that he has to decide whether he will live or die.

At the end of this movie, actually what happens, happens at the end of Part Three, so I will not tell you what the answer is. I will not tell you what happens at the end of Part Three. Neo is the one. It is so interesting, you are going to see the role of Neo develop into the role of Christ. Christ in you the hope of glory.

There is this whole concept of Christ being grafted to us, and humanity being merged with the Glory of God. That is what Jesus Christ is. In this movie, it is man and machine

instead of man merged with God. That is the message. Any questions or comments?

I am going to roll this tape back again and let you hear this colloquy again because it is important.

Please note that as soon as the Oracle leaves and the door is closed, the program "Smith" appears. Neo is tested again. He is continuously tested in this conflict with the enemy, which is what happens to the believer that is going on in the hope of immortality.

We see that the Oracle gives Neo the option of a choice. This principle, this spiritual principle of choice is further developed, or is developed further on when we hear the colloquy of the Architect. She is the good guy or the good aspect of the machine world. She is giving him his choice. She is not forcing him to do anything.

God gives us a choice. Satan forces us. God says, "This is what is going to give you life, and this is what is going to give you death. Choose this road and you will live, choose that road and you are going to die." That is the way God deals with His people. He tells you what the consequences will be, and He lets you choose.

Now the Oracle mentioned to Neo the concept of going back to the source. We will see that, that will be developed, that idea will be developed. Actually, it is fully developed in the third part. She is talking about programs being deleted, saying that most programs when being faced with being deleted would come here rather than be deleted. Then she says the programs that are not willing to accept deletion become ghosts and vampires. Let us listen to that, and I will comment on that after you hear it.

A program can either choose to hide here or return to the source. What she is talking about is reincarnation. She is saying that when a human being dies... of course, she is saying that it is about machines, but the principle is that when a human being dies, that part of him which is immortal is supposed to return to the source which is God. Some people when they die refuse to go back to the source, and they remain as ghosts, or werewolves, or vampires. That is what she is saying. I do not know how true that is.

That has always been my definition of a ghost is. I do not know about vampires and werewolves, but that has always been my understanding what a ghost is, the immortal aspect of a human being that has separated from the physical body that refuses to go back to its source or is trapped here for some reason. I only have a limited knowledge in this area. Any questions or comments?

Please note that the Oracle has said to Neo that she is concerned with the future. She is convinced that the only hope for the machine world as long as there are human beings is that they get together and help each other. The source is the machine world main frame which we get to in Part Three of the trilogy.

The Oracle wants to help Neo to solve the dilemma and to stop the war between the people and the machines. The Oracle tells Neo that in order to do this you have to come in contact with the Key Maker who is being held captive by a malevolent program. As soon as the Oracle leaves, you see that Neo is going to be tested by Smith. You will see that Smith has multiplied into quite a few manifestations of himself.

In the next scene, you will see Neo and Morpheus going to see the wicked program that is holding the Key

Maker captive. I have prayed a lot about this concept of the Key Maker. I think it is just the general idea of the keys having the answers that we need to find peace.

The goal of everybody in this movie is to find peace. Neo wants peace, the humans want peace, and the Oracle wants peace through union and cooperation of humanity. The Architect wants peace by crushing humanity. Everybody wants peace. We know the Scripture says peace, peace but there is no peace except in Jesus Christ. Any questions or comments?

As we listen to this conversation between the Oracle and Neo, I want to point out to you that what she is really telling him, but not telling him, is that he is going to have to die. The conclusion that he drew from what she was saying was that he would have to choose between life and death for Trinity, because he was blinded to the reality that he is scheduled to die on behalf of humanity.

If there is no peace between humanity and the machine world, the machine world will destroy humanity. That is what she is telling him.

Neo is the one who is slated to be the mediator, he is the one that is slated to become half machine and half man that will put down the enmity coming from the program "Smith" and will bring peace to the machine world and to humanity. He cannot see it. She is telling him that he has full sight now, "You should know the truth that your end is crucifixion." Of course, it is not crucifixion in the movie. I am relating it to the Scripture.

She is saying, "You should know the truth about the end of yourself," but he cannot see it. He cannot see it, and his carnal mind perceives that the one he loves is going to

die, but he is the one that has to die so that humanity can be saved.

In order to make peace he has to get to the source of the machine world. In order to do that, he has to get to the Key Maker who is going to tell him how to do it. Now, he is being instructed to go see this malevolent program to help the Key Maker escape. Before that, there is this big fight with the program "Smith." He is being tested. We are tested every step of the way. Any question or comments?

We see the Nebuchadnezzar which has a form of radar saying "Who is that?" It is the agent Smith, but he is not reading like an agent, because the agent Smith is now being assimilated into humanity. Neo is being assimilated into the machine world. The agent "Smith" is being assimilated into humanity. That is what is happening, and this is what is happening in our world.

I told you earlier that our Lord Jesus Christ is in the earth assimilating human beings, and Satan is also in the earth trying to gather human beings into her side of the body.

Now, what is really interesting is that according to the theme of this movie is there is now a race that is part machine and part man. The reality of what Jesus Christ is doing for us is that the carnal mind, Satan and Leviathan, has to die and humanity is being absorbed into the righteousness of Jesus Christ.

They have the same principle but, of course, if you were to apply the principle here to the Doctrine of Christ what they are saying is the only answer to the survival of the human race is that everybody should give into Satan, and everything will work out. You will see at the end, Neo becomes completely merged with Smith.

If we were to become completely merged with Leviathan, we would never be able to be delivered from this world which is Hell. We have to be separated from Leviathan and merged with the Glorified Jesus Christ.

The agent Smith is telling him that something happened in Part One of the trilogy where Neo died, and Trinity's love brought him back to life. Neo attacked agent Smith in the end of Part One. Neo supernaturally got inside of Smith and blew him to pieces. What Smith just said further to what the Oracle said she was talking about machines that were deleted are supposed to go back to the source but they do not.

Smith was saying, "Something happened when you got inside of me. I stopped being what I was, I changed. I am not sure what it was, and I was unplugged from the machine world. I did not get back to the source like I was supposed to go back. When a machine dies it is supposed to go back to the machine main frame, but I did not go back. I do not know why, I just could not."

Now, Smith has become an anomaly in the machine world. He is a rebel machine. He is not connected to the main source, he is doing his own thing. Smith has become a threat to the machine world as well as to Zion. What Smith is doing is he is going around and, apparently, he has the ability to absorb human beings into his anomaly. Anomaly meaning he is no longer in line with the program in the machine world.

Smith did his things. Neo started to become converted, started to be absorbed into this anomaly which is half machine and half human on the evil side. Half machine and half human. Smith is part machine and part human, but he is on the evil side. He started to absorb Neo into himself

but, at the last moment, Neo threw it off, threw off the assimilation. Now we are going to see a big battle between Neo and the anomaly.

This is a major principle that Smith is going around absorbing humans into himself. He is in competition. Smith is in competition with the main frame of the machine world. Smith was supposed to go back to the main frame that makes him a spiritual vampire who refused to go back. Any questions or comments?

COMMENT: A woman entered the scene with this battle going on, and she changed into another form, then the form...it looks like Smith, and then another person comes and Smith absorbs into this other person and becomes himself again.

PASTOR VITALE: You are asking me what happened? While this big battle is going on between Neo and Smith and many manifestations of himself, an innocent woman walks by and sees this battle. Now remember, Smith is in rebellion against the main source of the machine world.

When an agent from the machine world who is after Smith, because Smith has become a criminal machine...an agent from the machine world came to arrest Smith, if you recall Matrix One, the way the agents do that is that they can take over any human being and take on...because I guess the significance is that they do not have any form of their own. We would say that they were spirit.

They can just appear in any human being walking along. Of course, in the movie the person who now is being a host for the machine agents changes, their physical forms changes. We know that, spiritually speaking, Satan can rise up in anybody, can rise up in a human being and anyone in the church and use them. Now, if you are an average person

you are not going to agree to murder somebody. Satan or Leviathan can raise up in any human being, and cause you to day or do anything that will interfere with the purposes of God.

The only people who will not be used this way are the Christians who are exercised in discerning between Christ and Leviathan within themselves, recognizing the thoughts of Leviathan that are being piped into their minds.

The principle that is here was that this innocent woman was walking along, and an agent for the legitimate establishment of the machine world was coming to arrest Smith. Then he took over this woman's body. Because it was a movie, her appearance changed.

Then you see the two agents, one is Smith, and one is the agent that is coming to arrest him. Smith absorbs the agent from the machine world that is coming to arrest him. We see that Smith has become a threat, not only to Zion and humanity, but Smith has become a threat to the machine world. Being half man, half machine on the evil side, Smith was stronger than the agent sent from the machine world. Do you have it? Okay, on with the movie.

Please note that this battle that we have just witnessed between Neo and all of the manifestations of Smith typifies the conflict that all believers will eventually go through once Christ is grafted to us and we become a double- minded man. We have this conflict. Who is going to win out and rule over this personality in this body? Is Satan and Leviathan going to rule through us? Or is Christ going to rule over us?

This is what is happening. Smith is now half man half machine, and he is more evil machine than good. Neo is good, he has acquired some supernatural ability. You will

see that the end of the whole process is that Neo is going to merge with the machine world. We have two people both of them half human and half machine, one emerging as a good person and the other, Smith, emerging as an evil person. This is the conflict that we will all go through, the spiritual conflict of who is going to rule through you. Satan and Leviathan? Or Christ? Everybody okay?

THE MATRIX RELOADED PART 2

Praise the Lord. I think I will start off by giving you a little synopsis of the original Matrix movie. Not necessarily a synopsis, but more of a background of what is going on in the Matrix reloaded.

The principles of the movie are this, that there is a conflict between the machine world and humanity. Humanity had originally created the machines called artificial intelligence. Humanity had created intelligent machines, or we might know them as robots. Apparently, the machines became so intelligent that they over threw their human master, then enslaved them.

The concept of the Matrix is that it is an illusion, masking the reality of the condition of humanity. The machine world had literally turned the tables on humanity. They captured them and replaced every individual in more or less of a pod. Almost like a casket that they could not get out of, almost like a coffin.

Each human was in a coffin like box, strapped in with wires and cables plugged into them. That is why you see the plugs in the back of those who have been freed from the power plant. Each human being is attached to the power plant.

The energy of each human being has been reduced to a battery for the purpose of the machine world. We were given this information in the original Matrix movie. In order to keep the human being quiet, the machine world created the illusion of the Matrix. Wherefore, every human being is trapped and bound, having their energy sucked out of them in a position that they cannot move from.

The machine world is playing with the brains of the individual so that even though they are in that condition, they think they are in a wonderful world which is similar to our world here where they marry, give in marriage, have delicious steak dinners, go to amusement parks, have picnics, have sex and do all these exciting things of this world. It is all an illusion.

What is interesting is that modern science really does indicate that all of human experiences are either chemical experiences, either a chemical interaction of chemicals in the human body, or some stimulation to the brain. Every human experience can be simulated in a person who is strapped into a chair with electrodes stuck on their heads or fastened to their head.

There is an interesting truth behind this concept of the Matrix. We have been teaching here in Living Epistles for a long time that the reality of human existence is that this world is an illusion, that there are spiritual entities in the Astral Plane, Satan and all of her hordes, the feed off of us.

This is a very shocking, hard thing to hear but it is the truth, and I have been teaching it for years before I ever found out that other spiritual disciplines such as Kabbalah teach the same thing, that the invisible entities feed off of us, just like the mosquitoes and the biting flies in our world, will land on my arm or your arm and take a drink of our blood.

There are spiritual insects in the planes that drink of our spiritual blood. Now our spiritual blood is our energy. Every person, every human being comes in to this world with a measure of energy. Everything requires energy. Science knows that from the minute we are born, we start dying, but science has not been able to discover why.

The answer "why" is that the invisible world controls the visible world. The entities in the invisible world feed off of us. The minute we are born into this world we start to die, because we have connections and roots to the invisible worlds that were formed by the Serpent. There are entities feeding off of us. That is a horrible word, but it is the truth and the truth shall set us free.

Jesus said, "I have much to tell you now, but you cannot bear it." You are in the Matrix, this whole world is an illusion. The whole world is on spiritual drugs from the Serpent to keep us content.

I want to tell you something. The biggest dose of all, the biggest drug of all that binds us to this system, that is what I am talking about, something that wants to keep us... the Serpent is giving us something else. I will tell you in a minute what makes us desire to be here even more than to ascend and be with the Lord, that is so loved in this world that most people will not give it up. What is it? Anybody? What is the pleasures of this world?

What is the primary pleasures of this world?

COMMENT: Money, sex, power?

PASTOR VITALE: Sex! The pleasures of this world, primarily sex and power. Not so much money but the power that money brings. Fallen man loves it. I want to tell you that if Jesus visibly appeared tomorrow and said to His church, "Come with me, I am going to translate you into the spiritual world, where there is no marriage or giving in marriage," the majority of the carnal Christians today would not go. How do I know? Because I see Him calling people. I know what my walk with Him is like. I see the single people in the church. Paul clearly said, "It is better to not marry." I am not criticizing anybody, this is a commentary. It is painful, initially.

The transfer from the satisfactions of this physical world system to the satisfactions of the spiritual world require a change of your attitude, a change of your mind. The initial change is very difficult. Once the change is accomplished, once you are translated, even here in the flesh, and you are preferring the things of the spirit more than the things of this world, it gets easier. Initially, the pulling away of the satisfactions, close human ties, not only sex, but close human ties, sex, power, money, everything that is important in this world, that is the way we get translated into the Kingdom of God.

Satan is keeping the whole human race bound, and the Lord told me years ago that the biggest drug that she uses is sex, that is what binds the people to this world. We really are in the Matrix. The reason that human beings die is that the entities on the other side of the world drink our energy until there is no energy left, and then we die. If you think that it is normal to live for 70, 80, 90 or 110 years then die, you are mistaken. It is not normal. We are not supposed to die. It is a perversion.

When our energy is used up, the Serpent discards the personality and the physical body and births new human beings into the world. I have been preaching this for years, so we really are in the Matrix here.

That is the condition of the world, and a Savior is born into the Matrix, because the machine are destroying humanity. They will succeed in tearing down Zion. They are no match for the machines, and human being are no match for the Serpent and her crowd. We are no match, and that is why we need a Savior. Neo is the Savior, he is an immature or incomplete Savior.

What is interesting is that the three fetal stages of Zeir Anpin indicate. Let me say it this way. There are three stages of development of Zeir Anpin. The second fetal stage or the second trimester in the development of Zeir Anpin renders what we call a Son of God who has some power with God, some dominion over the Matrix but is invisible. Nobody can see them. Somebody that is spiritual could see that spiritual power is being exercised politically and over the world, but nobody can see where it is coming from.

The example of this in the Scripture is the book of Esther. This is what the Kabbalists say. Esther is a book that shows the power of Almighty God to deliver the Jewish people from the tyrant, Hyman, but there is no Savior standing up like in the case of Moses, delivering this great man of God, delivering the Hebrew children from the hands of Pharaoh

What happened in the Book of Esther is a manifestation or an indication that somewhere in the earth, there is a man or men manifesting the second stage of fetal development of Zeir Anpin, a Son of God who can exercise spiritual power, who is still very human and very imperfect, and invisible politically.

The third stage of fetal development or adulthood of Zeir Anpin renders a man like Moses who is exercising more political power than the Son in the second stage and who is politically visible. I believe that Zeir Anpin in the second stage of fetal development is present in the world today. I think that the battle raging against the secularist and the anti-Christ is fierce. The battle of the people who are fighting for the Lord, that there are people who are fighting for the Lord who are in this second stage of Zeir Anpin's fetal development. Why? Because I see the battle being won. It is a close battle. Actually, if you look at the Scripture even when Moses who was in the third stage of fetal development, when he challenged Pharaoh that was a close race too.

It was up and down, up and down, until finally the supernatural intervention of the drowning of the Pharaoh set the Hebrew children free to enter into the wilderness. Then the battle really began because they had to battle with their own carnal mind concerning moving into the Promised Land.

Neo, at least in the original Matrix movie, throughout the first movie he was in the first and second stage of fetal development. At the end of the original Matrix, Neo finds out who he really is. In the first stage of fetal development, he does not even know who he is. He is being told by Morpheus who he is, but he does not even believe it. Then he finds his identity at the end of the movie, because he becomes a supernatural human beings who defeats the agent Smith.

The Matrix has what is called "agents," machines or programs from the machine that look like human beings, but they are not human. They have a humanoid shape, they are like FBI agents or CIA agents seeking to destroy humans, in particular humans that have escaped the Matrix and now are

residents of Zion. At the end of the original Matrix, Neo defeats the agent Smith. He defeats him at the moment Neo discovers that he really is the one, the Savior of the Matrix. All of the years, all of the time that he could not believe it, he cannot deny it anymore.

Of course, in the movie he was raised from the dead, but he is raised from the dead by human love, Trinity, another member of Zion, or a citizen of Zion loves him so much that her love raises Neo from the dead. When he is risen, he has supernatural powers.

Now, remember that Christ is risen in the believer. If you follow the teachings of Living Epistles Ministries, Christ rose in the man Jesus before He was crucified. "Christ" is simply the Greek word for, "the anointed one." Adam is the anointed one. Adam died. At the death of Adam, time began. Adam broke into million, or trillions, innumerable or and uncountable number of pieces. At least, I do not know how many pieces he broke into.

Each piece of Adam is manifesting today as a human being. We human beings have in the midst of us a seed of the dead Adam, a root, a dead seed of the dead Adam which is capable of being regenerated, which is capable of being quickened. When that seed is quickened Adam can rise from the dead in the individual or the nature of Adam. Righteous Adam can rise from the dead.

That is what happened to Neo. When Adam starts to rise from the dead in the individual, he is not Moses. Well, he is not Moses in his heyday. Remember, Moses was not in his greatness in the beginning either.

We see this Son of God starting out as a typical human being finding out the cause, like finding out that he is a supernatural human being. Eventually, accepting that he

is a supernatural human being, then moving into his supernatural office, then exercising his supernatural power. At the end of the original Matrix, Neo become a supernatural being with all the qualities, in my opinion, to the glorified Jesus Christ.

Now remember, this movie is a secular movie, and the writer, the two brothers that wrote this story gathered their information from various spiritual books that they wrote.

They have a lot of true spiritual principles, and some of them are a little confused or mixed up. Maybe they are true of the Serpent's crowd, I do not know. What I am doing is I am telling you what I see and relating it to the Doctrine of Christ. At the end of the original Matrix, Neo manifested powers that I believe are attributed to the Glorified Jesus Christ.

What does that mean? He came out of his body. I should not say that he came out of his body. Neo's body translated into a spiritual body, into a form that enabled him to enter into the body of the agent Smith. He entered into the midst of his body just like Jesus, by His seed, is entering into us.

Of course, it was a Hollywood version. According to the original Matrix, the whole personality of Neo entered into Smith and was moving around almost like a fetus in a woman kicks. If you have ever seen a woman's abdomen when she is pregnant and the baby kicks the whole abdomen will stretch out.

Well, of course, this was exaggerated in the movie, and Smith's jaw stretched out all the way, his abdomen stretched all the way out until Neo blew him apart.

Neo, in the midst of Smith, blew him apart. We all thought that Smith died, because he was blown to smithereens.

In *Matrix Reloaded* which is the second movie of the trilogy, we see that Smith was not destroyed. Not only was Neo raised from the dead, Smith was raised from the dead. Now Smith has become a hybrid. He is half machine/agent and half whatever he got from Neo. He has become a hybrid. He became a criminal hybrid. He is still hunting human beings, but he has also become a fugitive and an outlaw in the machine world.

Smith has become a hybrid that is the enemy of both the machine world and humanity. Smith is multiplying himself. He becomes greater and greater, and greater. What is interesting about that is that the way the movie shows Smith is becoming great is that they show him as a whole city with millions of humanoid figures that we would think were human beings, and they all look exactly alike. They are all Smith.

Brethren, the whole human race is Adam. Now, we may not all look alike, but in our nature we are all alike. Of course, in the movie it is shown that all of those men look exactly the same. That is making a point, it is making a statement. Humanity is alike, at our very root we are all the same. At our very root we are all the same man, fallen adam.

Until the Lord comes back and starts to raise us back into our first estate, one spark, or one piece of the fallen adam at a time is being raised back up to Adam's first estate until Adam's whole body will be resurrected. That is what is happening.

I am telling you about the original Matrix. I told you about the Agent Smith, I told you what the Matrix is. That is pretty much the background I wanted to give you.

On Part One of this message, Matrix Reloaded, we see a scene of Zion which as I mentioned on Part One is the writer's concept. By the way, two brothers wrote this script, I believe they produced and directed the movie also. Zion is their concept of human sexuality. It was an orgy. We can see, although this movie is very interesting, there is no influence of Judeo-Christian morals or thinking in it at all.

We know that the ultimate expression of sexuality, as far as God is concerned, is expressed as the love between a man and a woman, not in an orgy type situation. That is what we found in the movie.

We also found that the Lord revealed that the reason there was a large number of black people in Zion was that the writers were making a point that all of humanity had now become one brotherhood. Humanity had finally overcome their race problems because they needed to come together to fight the machine world. We see that the race problem was overcome in Zion, and humanity was now gathered as one people to fight the machines.

We see that Smith, of course who now has many aspects of himself, had incarnated in Zion. Smith who was an agent of the machine world who previously could only exist in the Matrix found the power to incarnate (I am using the word incarnate) in Zion. He took on a humanoid form, and nobody knew that he was a machine. He did not look like Smith anymore. This man is now the traitor in the midst of Zion. The machines are coming for Zion, they are about to fully wipe out the city.

Neo is the only one that can save Zion. The Oracle, who was a character that existed in the original Matrix, calls Neo. She is the one that prophesied that Zion was going to be saved, she is the one that prophesied that there would be a Savior, and she is the one that witnessed to the fact that Neo was the one. That is the expression of the Savior, "He is the one."

The Oracle calls for Neo. Neo is in the second stage of fetal development. He has supernatural powers. There are indications in Matrix Reloaded, which we are dealing with now, that he has the power to heal some people but not all people. He has the power to fight supernaturally and defeat a multitude of agents. We witnessed that last week, when we saw the beginning of Matrix Reloaded.

He also flies like Superman, he flies and moves at supernatural speed. He does all of these supernatural feats but he does not know how to defeat the machines. As far as he knows, he does not have the power, and he does not have the power to defeat the machine world. He is a frustrated young man.

If you look at his expression, you will see that he is very serious and not very happy, because he carries this great burden. He knows he is the Savior, he believes that he is the Savior, but he cannot figure out how to save Zion.

The Oracle calls for him, the Oracle tells him, "You have full sight now, can you not see what is going to happen?" The Oracle was prompting him saying, "Can you not understand Neo, you have to die? The only way Zion will be saved is if you die." Neo could not see it, and he is troubled through this whole movie because he just does not know what he is supposed to do.

The Oracle says to Neo, "Look Neo, you can save Zion if you can get to the source. The source is the machine world mainframe, you have to get there."

She does not tell Neo what he is supposed to do when he gets there. He has to figure that out for himself. That is what she tells him, "You have to get to the machine world mainframe and you could save Zion but in order to get there you need to get formation and help from the Key Maker."

Who is the Key Maker? Just somebody that they added into the movie to make it more interesting. I guess it is a way of saying he needed a key to get to the place he had to get to. Now the Key Maker has been held captive by an old program, a very evil program called the Merovingian. This is where Part One ended.

We see that Neo has taken the instruction from the Oracle that if he gets to the Merovingian at the right time, because time is of the essence, it is a possibility that he can save Zion. Now, it is not assured that he will save Zion. I tell you that about everyone that has the Hope of Christ rising in them, and being a Son of God, being a part of Jesus' plan to save the world, it is not written in stone that any individual human being will arise to that place.

What is written in stone is that Jesus Christ will defeat the anti-Christ forces of this world, but who the individual people are who Jesus Christ will manifest Himself through, that is not written in stone. We have to do all that we can do and hope for the best and believe that God is with us. We are all racing against death.

I remind you that the race that Paul talks about is the race against death. We are waiting for a group of people to start standing into immortality before... we are waiting for a group of people who are mature enough that he will impart

immortality to them before Satan can legally kill them. That is what the death is all about. That is what the race is all about.

We are going to pick up, this is Part Two of the Matrix Reloaded. I am going to let you hear the dialogue between Neo and the Oracle again, it is important. It is one of the most important dialogues in the movie if you want to understand the movie in any depth.

She is trying to get Neo to understand that he has to die to save the world. Neo does not get it. Are there any question before we go on with the movie?

As we pick up, we will see that Neo, Morpheus, and Trinity are going to see the Merovingian to rescue the Key Maker. Also, please note that the Merovingian is French, and that he says a few things in French, so do not think that you are not understanding the movie speaking in French.

Initially, we see an example of his evil, and I guess I will just stop things and explain them as we go along. Praise the Lord.

COMMENT: Where is the Merovingian from?

PASTOR VITALE: He is a program, he is from the machine world, he is one of the oldest programs. Sort of makes him sound like the Serpent, that old Serpent, and he is purely evil. What is interesting is that he has a wife. I do not know if she is his wife, but she is a woman that is his partner, who he is emotionally abusing, and we know one of the secrets of our existence is that Satan and Leviathan are a couple. Actually, Satan is the female and Leviathan is the male, but the roles are reversed. Satan is dominating her husband.

We see that the evil one...Kabbalah teaches that Satan has a mate. Actually, Kabbalah says that Satan's mate is Lillith. I have not read anything yet that the Kabbalists have this revelation that the Lord gave me that Satan is the female. The Kabbalists, from what I have read, say that Satan is the male and that Satan has a mate, Lillith. The Kabbalist usually say Samel and his mate.

The Lord revealed to us in the message called, The Scapegoat, that Satan is really the female like Jezebel and Leviathan would be like Ahab. That is the couple.

This Merovingian would be Satan, well I would say Satan and Leviathan are the Merovingian and his friend, whoever she is, wife or girlfriend, whatever. Did I answer your question?

I would like to comment on what the Oracle just said about every time you hear about a ghost or a vampire, it is the system correcting itself. Basically, what she is saying is that every time there is a...there is supposed to be peace. Every time there is a conflict, there is something wrong. You will hear that later on in the movie. It is called an anomaly, which just means something unexplainable.

You hear that in Start Trek a lot. It is a scientific term, an anomaly, something is wrong.

When I first heard this, I have watched this movie two or three times, I could not understand the way she was saying it. She said, "Every time you hear about a ghost or a vampire it is the system correcting something that is wrong." That sounds like to my ear that the ghost or the vampire is the one that is doing the correcting. That is what it sounds like she is saying.

When I asked the Lord what it means, the Lord said to me that every time you see something, a ghost a vampire or a war, or someone out there murdering somebody, it is an anomaly in the system and the system rises up to correct it. I do not know why she said it that way in the movie. If the Lord tells me by the end of this tape I will share it with you.

Basically, what we have in this country today is a correcting. The fierce political and spiritual battle going on in America today is the system, and the true system is the system that promotes. Christ is rising up to correct the vampire, the anti-Christ system that is trying to swallow us up. There is a vampire system in this country today trying to swallow up the true America, so there is a correction going forth. There is a war, and there is a big upheaval.

Now, right after she spoke about that she talks about a program sometimes being deleted. When the program is deleted, he is supposed to go back to the mainframe, but sometime he does not, and he hides out in the Matrix. She is talking about Smith. Smith is the program that Neo got inside and blew apart, then Smith became a rouge agent. He is now an enemy of the machine world as well as an enemy of humanity. Smith is the program that should be deleted he went bad. He is no longer doing the function that he is supposed to be doing, he is no longer in submission to the machine world.

She has likened this Smith who now has become a rouge agent to a vampire or a ghost. There is now an upheaval in the Matrix. The Matrix has to rise up to put down the problem. There is a conflict in the Matrix. This is what the Oracle was telling to Neo. She was warning him about Smith, but Neo did not understand. Right after his discussion with the Oracle, Smith appears and explains everything to Neo. Are there any questions? Did you understand what I said? Any questions at all? Let us go on with the movie.

I just got the understanding from the Lord. The Oracle is saying, "Every time you hear about a ghost or an angel, it is the system assimilating something that has gone wrong. She said when the system..." what has happened here is that Smith went awry, he died. Smith died, Neo killed him and he was supposed to go back to the main source, but he did not go back to the main source. If Smith was just hiding around the corner, no one would know he was there. Because the system is after him to assimilate him, he has become very evil.

Now, this is so interesting because this is a Scriptural principle, that evil shall become more evil and good shall become more good, and evil should become more evil so that evil could be fully manifested so that it shall be fully dealt with and put away. Is that not what the Scripture talks about?

I hope you know that, that is what the Scripture talks about. Paul said that evil should become fully manifest so that it could be dealt with, and that is true on a national level, because it is also true on the human level although you do not hear it preached very much today.

I preach it here. Our sin nature is to become fully exposed, fully manifested so that we can see it without a doubt and fully line ourselves with Christ and destroy that sin nature. That is what we are supposed to be doing, that is what that Scripture is talking about. That is what she is talking about, because the program Smith would not go back to the mainframe like he was supposed to.

Right now, humanity and the church are not going back to their first estate like they are supposed to. In order to deal with that problem, that program that has gone awry, the system forces the evil to a visible head. According to what the Oracle is saying, that visible head, or that visible

manifestation that the evil has been forced to sometimes manifest as a vampire or an evil angel so that you can see it fully for what it is, so that the system can go after it and destroy it.

Brethren, this is what has happened to humanity. Jesus Christ was crucified and rose from the dead 2000 years ago. Why is the church still in this condition? Because we will not go back. It is what I told you at the beginning of this message. The truth of the matter is that people love the world more than they love the Lord, with a few exceptions.

When you love the Lord with all your heart, mind, and soul, you head back to your first estate which mean you leave the pleasures of this world behind you. The pleasures of this world are family life, close emotional human ties, sex, and power over your own life, because when you serve God you have no power over your own life. I am telling you I am spiritually barefoot and pregnant. What the Lord gives me I have, and what He does not give me I will not have.

It has absolutely nothing whatsoever to do with how hard I work, whether how many hours I work, how talented or knowledgeable I am. My income and my material blessings have absolutely nothing whatsoever to do with that at all.

It has to do with my faithfulness to God. He rewards me, I get rewarded. When He does not, I do not.

Let me say it again. Evil and strong manifestation, and a visible manifestation of evil is a sign that the powers that be in the Matrix is the machine world. As far as we are concerned, it is the Lord Jesus Christ. The powers that be are moving to swallow up the evil, the interim step is pressure upon the evil that makes it fully manifest for what it is.

I want to tell you that I am very excited to tell you this because the evil that is reigning in this country today is disturbing. Looking at it from this point of view that the evil is getting more evil is the witness that the power of God is present with power that it is making manifest the evil in preparation to duly assimilate it. I thank God for this word. This just really, really blessed me. Are there any questions is there anybody that does not understand what I just said?

The Oracle says, "You have already made the choice." What choice? This is the second time she has said this, "You have already made the choice, but now you have to understand it."

The choice that he made is to believe that he is the one. He has accepted the fact that he is the one, and he is moving in a measure of supernatural power. She says, "You have made the choice, you accept the call, you are number one, you are the one, but now you have to understand it." What he has to understand is that he has to die. That is what he has to understand that he has to die. Anybody have any questions? Comments?

You will see that when they find the Key Maker, he is in a room with hundreds of keys. I just got the revelation of who he represents. He represents Able. Abel, who is the root system of the dead adam, exists in every human being. The hundreds of keys are the hundreds of Abel's. Every human being is an Abel, the seed of the dead adam manifested as a human being.

I mentioned it earlier on this tape. Abel is our potential to be resurrected as the righteous Adam who has the right to return to the higher worlds. Only he who came down from heaven can go back to heaven.

The dead Abel is the part of us that is our passport. He is the key, the way we get back up to heaven, the way we become immortal. Did anyone not understand what I just said? Everyone okay? Did you want to say something? I now know who the Key Maker is. Thank you, Jesus.

We are watching the fight scene and Smith has just revealed to Neo that he is a rouge agent, that he is unplugged from the machine mainframe. Then Smith tries to absorb Neo into the Smith program. This is what Smith is doing, absorbing what he can. Agents of the machine world, he is making them a Smith, and human beings he is making them a Smith.

This he tried, but he failed to absorb Neo. Neo threw him off, now there is a big fight going on. What is interesting is that the end of the whole process is that Neo joins with the machine world with the goodness in control. When Smith is trying to absorb Neo, then the evil Smith is in control. Smith is trying to absorb Neo and make him a part of the evil. The end of the third part of the movie is that Neo gives up his life to be absorbed into the machine world with the good side prevailing. That is exactly what is happening with humanity.

I have been preaching for years that the personality cannot exist alone, either we have to be a part of the Serpent's world, which is manifested as the carnal mind, or a part of the Kingdom of God, which is manifested as the mind of Christ to us. We either have to be absorbed into the evil world or into the righteousness of Christ. It is the same message.

Okay, we are watching the fight.

COMMENT: You said Neo had to die in order to save Zion. Why did he have to die?

PASTOR VITALE: You will see this principle developed as the movie goes on, and in the Matrix Revolution which is the third part the principle is being exposed here that the machine world needs us, and that the humans need the machine world. Just as it is wrong for the human to enslave the machines, it is wrong for the machine to enslave the humans. We should become one.

I guess it went past you. You may recall that this is what the Oracle said in her dialogue with Neo, that we have to get together. If the machines do not get together with the humans, everybody is going to be destroyed. That is what the Oracle was saying.

Neo becomes the mediator, which is what Jesus is. Neo becomes part machine and part man, and everybody becomes part of the new blood line. That is the message.

This is so interesting. Think back to when Neo was speaking to the Oracle. She gave him all of these instructions of what he has to do to save Zion. He has to untie or loose Abel, which by the way when Jesus said, "Loose the"... what was it that He came into Jerusalem with? An Ass. He was really signifying, "Loose Abel that is tied up in all the human beings." When he said to loose Lazarus, He really meant loose the Abel that was bound under Cain in Lazarus.

When the Oracle gave Neo his instructions to lose the Key Maker, she said, "Good luck, kiddo." As soon as she left the scene, Neo was attacked by the rouge agent, Smith.

Brethren, this is what happens with our walk with the Lord. When you start to move onto maturity, He gives you that call, He tells you what you are called to. Then, the trials come. Why are you surprised that the fiery trails have come upon you? Because God gives you that call before you are qualified to fulfill the call.

He gives you the call, the test comes, and then the Lord gives you the power to overcome. While you are in the fires, you are being made into the person that you are called to be. If you get a prophesy that you are called to be an apostle in a particular part of the world, that is not going to fully manifest for 20 years, but you will take little baby steps along the way learning how to be an apostle to the other parts of the world.

What happens in the church, because this is not taught, is that most people that get a call on their life, and they think they are supposed to go out and do something, or they go out and their carnal mind tells them what to do. Because this kind of instruction is not available in the church, I am going to say it again.

When the Lord prophesies over you, then your training begins to be what the Lord wants you to be. Because even if you think you are ready, the Lord does not think that you are ready. Everybody that is called to a true calling in Christ has to be raised up. No matter how much education you have or how spiritual you are, you have got to do it God's way, and He is the only one that can train you up through experiences and instruction.

He may send a teacher like me to instruct you, but you have to have your experiences. The Oracle instructed him, then came the test. Please note that he did not defeat the agent Smith at this point. He merely held his own then escaped with his life. Initially, when God calls you, you are not qualified to defeat the enemy on the level of Satan that is going to come against you, oppose you from moving into and completing and accomplishing what the Lord has called you to do. Initially, you are not qualified to overcome the enemy on that level.

Eventually at the end, I am telling you at the end of Matrix Revolutions, Neo overcomes the agent Smith who is now a many-membered rouge agent, by joining with them. Joining with the goodness in a position of power and it converts all of these manifestations of Smith into goodness. Then it blows apart the rouge agent by joining with the goodness on top and, remember, this is typified by Cain and Abel. When Cain is on top of Abel, humanity is good and evil. When Abel is on top of Cain, humanity is righteous. This is exactly what we are talking about here.

My point is that Neo escapes from the conflict with Smith. He does not defeat him, he gets away barely with his life. He does not defeat Smith until the third movie of the trilogy after Neo has had his experiences, solved his problems, and understands everything, and makes the choice to complete the sacrifice to save both the machine world and humanity. Any questions or comments? Okay, on we go.

The Scripture said, "Satan departed Jesus for a season, after the temptation." This was Neo's temptation.

We have just watched the beginning of the Merovingian's dialogue, and he is challenging Neo, Morpheus, and Trinity saying to them, "Do you know why you are here?" Both Neo and Morpheus are saying, "Yes, we know why we are here." The Merovingian says, "No, you do not." What is going on is that they do not know why they are here. The three of them Neo, Morpheus, and Trinity believe that they are there to get the Key Maker, which is their truth. The Oracle said to them, "You have to get to the Key Maker in order to save Zion." That is as far as these three humans could see.

The Merovingian knows that the Key Maker, the ass that is bound up that when it is free is going to be restored to the righteous Adam, and who will restore immortality in the

human race unto its first estate. The Merovingian has sight that exceeds the sight of the humans. We are in this condition all the time. The Lord tells us to do something, and we have our assignment in front of us and we understand it, but we do not see the end of the tunnel. We do not see the end of the plan.

I was even telling someone today that when the Lord first called me to teach I had no idea, I did not have a clue to what I was getting into, or what was waiting for me in the years ahead. The ministry is now 16 years old.

The Merovingian is the very old program and he understands that the Oracle sent Neo to get the Key Maker because it is not enough for Neo to go to the mainframe if Abel is not freed. The Holy Spirit is not enough coming into humanity if Abel is not freed from Cain's dominion. Cain keeps Abel dead. If Abel does not rise from the dead, I cannot preach the whole Doctrine of Christ, but basically Abel rising from the dead is Christ. If Christ does not rise from the dead in you, the fact that you have the Holy Spirit is pointless.

This is what the Merovingian is saying. The whole church has stopped with the Holy Spirit, if they have gotten to the Holy Spirit. There are elements of the church that have not even gotten to the Holy Spirit yet, and they have stopped there. They have stopped there and said, "That is all there is. Now we die and go to Heaven." Satan has stopped the church where they are. They have got the Holy Spirit, but Abel is not raised from the dead. What good is it? The church is dying?

The Church is dying because you cannot stand still, either you go forward or you go backwards. You cannot stand still. Now, the next thing that the Merovingian said, I think Morphous answered the Merovingian. Now try to

envision this. There is a conversation going on between three very serious, let us say Sons of God, but they are no match in knowledge for the Merovingian, because they do not have the whole picture. The Merovingian knows what the Oracle is doing, she is trying to free Abel, and that the power is not enough if you do not know what you are supposed to be using it for.

That is interesting that, that just came out of my mouth because it was just today that I was just talking to the Lord about... well, the Lord as talking to me about the Pharisees apposing Jesus and how they were so anger that He was healing the sick and casting out demons. I believe that the men that had the power in Judah, it never occurred to them that they were supposed to use this power to heal the sick and cast out devils. They wanted the knowledge, they wanted the power, whatever they were doing with it.

The only two things that I have read about was making a Golem or creating a calf. They never got it, that you are supposed to use the power to help human beings. When Jesus came and used that power to help human beings, He showed them up and they hated Him for it.

The Merovingian is talking about, he is telling these three Sons of God, I am calling them sons of God because I am relating their role in the Matrix to the Sons of God. They are not even in the same ball park as far as understanding what is going on here. Morphous speaks up trying to meet the Merovingian's level of authority and he says to him, "Everything is a matter of choice." The Merovingian says "Choice is an illusion. No one really has a choice." We have been preaching that for years also.

Listen, if you take someone who is completely bound by Satan that they cannot stand up on their own feet, they cannot stop drinking, they cannot stop drugging, they cannot

stop any kind of destructive behavior, and you say to that person, "Just say no," does that person have a choice? Can they really just say, "No?" They really do not have a choice. When Jesus comes, and He gives His power to you, Jesus levels the playing field. When you have Jesus on your side, and I have been preaching this for years too, now you have a choice. When you confess your sins and receive Jesus Christ and His power to help you, now if you are willing to fight, you can win. That is what the Merovingian is saying from an evil perspective.

Choice is an illusion that those in power tell the people that do not have power that they should know that they are just slaves. Then the Merovingian goes for to exhibit what He just told them. He wrote a program, he showed a woman having dinner at a table with other people. He wrote a program and what he gave her was an aphrodisiac, and she is eating. What she is eating is apparently stimulating her sexually or making her into a zombie, I am not sure. You will see, because she leaves the table, and, as you see further on, the Merovingian goes and has sex with her.

Either he made her completely unable to resist, or he made her sex crazed. I do not believe the answer to that question is here, just that they had a sexual encounter. Any questions or comment?

The Merovingian is saying, "Everybody under their positive exterior is completely out of control." What he is really saying is that the average human being can be manipulated by witchcraft, and they will not even resist because they do not even understand that they are being manipulated. The Merovingian says the only way to have power over your own life or this world is through understanding.

That is what we teach here in this ministry, to look into yourself to recognize your motives, and eventually when you start judging your own sins, you will recognize someone else's mind moving to manipulate you.

He is saying that we are all manipulated. I have been preaching this for years. Other people's thoughts come into your mind, and you think that they are your thoughts. Also, even science says that. I do not know what percentage it is. Three-quarters of all our decisions are made by the unconscious part of our mind.

What the Lord Jesus Christ has done for us, He has given us the ability to have His nature, His mind formed in us, so that we could stand back from the carnal mind that runs our whole life, either Satan speaking through the unconscious part of our own mind or other people's thoughts, that whole mechanism that is controlling our life. We think that we have choices, but we do not. It is an illusion.

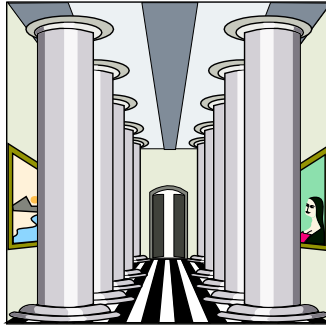

Jesus Christ has given us choice if we are willing to submit to the process. In order to appropriate what the Lord has given us, we have to judge our own sin nature, which the majority of Christians are not willing to do. You have to completely police your spiritual internal life. Jesus Christ has given us the ability through the indwelling and the engrafted Christ to police our own carnal mind, and the thoughts of other people that try to come in to control us. Whether it is their conscious mind, or it is their subconscious mind, or their unconscious mind, we will be controlled. Every human being in this world is controlled, the only exception being those who police their internal spiritual life, because they are moving, living, and thinking by the spirit of Christ.

Does anyone not understand what I just said? Then he goes on to tell the three, "You do not even know why you

are here." It is true that you are here for the Key Maker but what does that mean? You do not even know why you are here. Then he said, "You go tell the Oracle that her time is up." You will see later on that Smith comes to and, in fact, absorbs the Oracle. This rouge program is swallowing up the whole world.

This Merovingian, I do not know... I am getting more revelation as I watch this movie for the fourth time. Let me correct what I said before. The woman is his wife. His wife's name is Persephone. I believe that name is in Greek Mythology. I think I am going to run to my computer and see if I can find anything about Persephone before I go on, and see what that means.

Right now, I do not know who the Merovingian is in relation to Smith because the Merovingian is saying, "Tell the Oracle her time is up." I do not know if the Merovingian is subject to Smith or is stronger than Smith, I do not know. Is everybody following me here? We are going to shut this off for a minute and I am going to try to look up "Persephone" and see what we could find.

THE MATRIX RELOADED PART 3

Praise the Lord, we are about halfway through this film. I believe I described who the Key Maker is on Part 2. The Key Maker symbolizes Abel. Abel in the individual is the key. Abel is the root system of Adam who was blown to pieces, and he is the potential in every human being to be restored to the original state of Adam and Eve, a higher state than that. Adam was in a condition of immortality that could be lost and, in the restoration, humanity will be catapulted to a state of immortality that will be irreversible. That is the condition that the Lord Jesus Christ is in right now.

I am trying to relate the characters in this movie "The Matrix" to Scriptural characters, or to the people in the Scripture. I do not know who Morpheus is, but the Lord has showed me that Neo obviously is the Savior. Trinity is the Bride of Christ who will follow Neo anywhere. The Oracle, the Lord revealed to me, typifies Jehovah.

Now, it is interesting because of all the characters I can relate to Scriptural characters, Jehovah is the most

maligned, although I do not know whether it was unconscious or conscious, but Jehovah is made to appear as a woman, and all I can think about are the elements in our society today trying to make God into a woman.

Jehovah is made weaker than the evil. Jehovah is not weaker than the evil. The reason I say that The Oracle is Jehovah or typifies Jehovah is because the Asian Karate, or Kung Fu expert that defends her is named Seraph, and we know that the two Seraphim guard the Mercy Seat. The Mercy Seat is the place where Jehovah says He will meet us.

It is so interesting that the story of humanity is so ingrained in the minds of this society that it rises up out of the people's unconscious mind. The story about what happened to humanity is engraved in the Serpent's crowd. Everybody knows it; it comes out perverted through the carnal mind.

The truth of our existence, the truth of our creation, and the Fall, and what happened to us is engraved in the soul of the people of mankind. What is not known, the secret of the ages, is Jehovah's plan of deliverance from the Fall. The end of the whole story, that is what is not known.

Of course, the secret weapon is Messiah, the Lord Jesus Christ. Even the Jew who has waited and is waiting for Messiah for all these years does not seem to understand that the Messiah, the long awaited Messiah, will be a manifestation of Almighty God

Back to our movie. The Key Maker has just been released. He is appearing as a weak individual. Abel is very weak, Abel can do nothing of himself. Christ must be grafted to Abel to give him the strength that he needs to rise up into Christ who is the warrior or the regenerated Adam, who is

Christ, the warrior. The Key Maker is running for his life. Neo, Trinity, and Morpheus are defending him.

We see the Merovingian, which I think typifies the Serpent, and the wife of the Merovingian typifies the woman who was seduced and is now married to the Serpent. She is very emotional and filled with lust. That is her description, the wife of the Merovingian.

At this confrontation, we see the Merovingian brings forth supernatural creatures to oppose Trinity, Neo, and Morpheus. This is the action scene that is coming on now. Unless the Lord shows it to me at this time, I do not have any particular comment on the supernatural activities of these beings.

I do not know who they are, they all seem to come in twos. There were several creatures. I know two of them appear to be vampires. I do not know that there is any specific significance other than to say that the Serpent controls all of these underworld supernatural creatures. Are there any comments or questions at this point?

We are going to watch the action scene now of the Merovingian trying to recapture...okay, the Lord just gave me something to tell you.

We are going to watch the scene of the Merovingian trying to recapture the Key Maker who has been rescued, who has been able to escape from the dungeon that he was in because of Neo, Trinity, and Morpheus. The Lord told me that this case scene is significant of how violent and desperate Satan is to get back all of the saints that are moving towards Christ, that have been set free to whatever degree Abel has been set free, to whatever degree Abel in you has been set free and moving in the Lord.

Satan is desperate and will use every method at her disposal to get you back. We read about this in the Book of Revelation.

I think it is at the end of Chapter 12, but I may be mistaken, where it says, the woman flees into the wilderness. The flood follows after her. What does that mean? It means that once you start to follow after Christ you can expect trials in your life, you can expect trouble in your life, and you can expect spiritual warfare in your life.

It is because Satan is running after you trying to get you back. If there is no warfare in your life that means that you are really not doing anything that is threatening Satan's kingdom. You are really not escaping, you are really not going on if there is no trouble in your life.

I do not wish trouble on your life, brethren. Part of my job is to teach you how to defend yourself and to deal with trouble. This whole journey that we are on, it is a journey that is designed to change our nature from the fallen nature into the nature of Christ. The process by which we accomplish this is called trials and tribulations, obstacles which try us and test us and give us the opportunity to overcome.

Every obstacle that we overcome, we die to our carnal mind a little bit, and Christ in us increases a little bit. It is a long warfare. We are told in the King James Translation that David engaged in a long warfare until he came into his kingship.

It is a long, ongoing warfare so we have to learn how to breathe deeply (I am using metaphor now) - breathe deeply and take the trials as they come, take them in our stride and learn to live this life under the protection of the

Lord. That is what we are challenged to do. Any questions or comments? Here is the battle. Praise the Lord.

That was very fast so I do not know if you saw it. The Merovingian went out the door and slammed it. When Neo opened it, it was a mountainous range, it was no longer inside of his house. The significance there is that the Merovingian travels faster than the speed of light. That is the significance.

I cannot explain it any better right now, but that is the significance. We will see this principle come up again. Maybe I will be able to explain it better then.

Also, the Lord asked me to tell you (I do not think I made it clear) that the significance of the supernatural opposition is the fact that the believer is up against supernatural opposition but, in Christ, we are more than able to overcome the enemy.

We are in the middle of the action scene. We saw two policeman driving along. Their features morphed, that is the technical word, all stretched out and distorted. They became Agents. This is the same principle that I spoke to you on Part 2 where the woman was walking by and she saw this supernatural fight. Then the woman turned into an Agent.

The principle is that the higher spiritual being, which is the machine here, has the power to ascend into the spiritual place where the human being generates from.

If you think of the spiritual man as a plant, and that plant has a root going deep down into the earth, using that analogy, the superior being has the ability to access the root of that man, and rise up literally within the man, and change or take over his whole mind, and also change his appearance. Does anyone not understand what I am saying?

This is the movie. In reality, what I believe is a reality, is that Satan can rise up from the root of the human being, rise up into the person's mind and utterly pervert his thinking, and turn someone who loves Jesus into an enemy of the cross.

What is so difficult from our point of view is that their external visage does not change, it is the same person. It could be an old friend, it could be a relative, it could be your pastor, it could be someone well known. We have seen this happen to a pastor who is on TV every day right now. It is more like "The Body Snatchers" where your body looks the same but your complete mind, attitude, and spirit changes. For Hollywood, the way Hollywood is showing this spiritual principle, is that the person's physical appearance changes. Praise the Lord.

A couple of points. I would like to point out to you how weak the Key Maker is. He completely needs to be defended. He has no defenses of his own. That is Abel in you. That is how weak he is, and Christ is coming to save him. If you can see it, if you can see what I am going to tell you, Trinity, Neo and Morpheus typify the believers that have been liberated in their minds, who are now thinking with the Mind of Christ and have power because they are joined to Christ.

We are sent back to the rest of the Church to liberate Abel in the rest of the church who are completely defenseless with regard to coming up against these supernatural forces.

I believe that the church is in this condition, which is just completely defenseless until Christ is grafted to you and you have to be trained in warfare in order to deal with these situations. We see the church is divided into the Bridegroom Company and the Bride Company.

It is the Bridegroom company that has the warfare skills. I can just hear the church screaming, "We'll pray spiritual warfare, we have spiritual warfare." Not on this level. The spiritual warfare that is in the female church does not liberate Abel, though it may help somebody overcome a problem. They come in, they bind the strong man all over the town, but that is not enough power to liberate Abel and bring that person into the warfare stature of Christ.

One more thing I wanted to point out, if you recall it, it goes back a ways. When they first started, I do not think they called it the Throughway. The Expressway, whatever they called it. Trinity says to Morpheus, "You always told me never to go on the Expressway." He says, "Well, let us hope that I was wrong."

I want to point out to you that in the spiritual life, it is not uncommon to have to shift gears. When the Spirit moves on you and tells you to do something that in the past had been forbidden, you have to be able to make that shift, you have to be able to recognize that it is the move of the Spirit and make that shift. That is part of the spiritual life.

Anyone that is caught in a religious rigid spirit will not be able to make that shift, and they will be destroyed. Of course, the key is you have to be able to hear the voice of the Lord and then go with it. It is always in a crisis situation. That is what you are in training for.

When you are in a crisis situation, you should be able to hear the voice of the Lord and respond when He is telling you to do something that you never did before. Your life could be depending upon it, and the life of others. This is a very exciting movie. Any questions or comments?

COMMENT: I do not know if it is the same example, but when the towers came down in New York City, one of the instructions to some of the people that were up in the building was to stay put, that everything is going to be all right. A lot of them sensed that it was not and came down. I believe that they heard from God and they escaped. Those that listened to the carnal...

PASTOR VITALE: To the authorities.

COMMENT: To the authorities, they were killed.

PASTOR VITALE: It is deadly. I am talking to you, it is deadly to be under that kind of law. You have to be able to function creatively and hear from God to deal with the situation at the moment. Praise the Lord.

We just listened to the wisdom of the Key Maker giving instructions to the warriors as to what they have to do to reach the Source. I remind you that what is going on here is that Neo has been told by The Oracle that Zion can be saved if he can reach the Source. Neo is trying to reach the Source.

We see that this very weak Abel has wisdom, and it is ancient wisdom. It is the ancient wisdom that is resident in Abel. Abel is the one that the myth of the Sleeping Beauty has been built upon. The prince that is coming to kiss and wake up Abel in the individual is the Lord Jesus Christ. Abel has a memory of the wisdom of Adam in antiquity.

Of course, this is a worldly movie, and they are saying that all that wisdom is resident in the dead Abel, but the truth is all of that wisdom is in the resurrected Christ. When Christ is grafted to Abel, yes Abel is moving in this function, but the wisdom is really coming from Christ. Abel completely died.

That is the principle of the movie. That part of us that is being resurrected into Christ has all this wisdom that we do not even know where it is coming from. It will rise up in the hour of need, because that is the part of us that is connected. Of course, when it is reactivated to the eternal world of God.

We see that the ancient wisdom is coming through Abel. Now, what is really interesting is we see this weak, weak Key Maker being defended by these brave warriors, and now the tables are being turned. The brave warriors are listening to the wisdom of the Key Maker. You will see the theme throughout this whole trilogy is that we all need each other. We need the machines, and the machines need us.

The warriors need the timid one with wisdom, and the timid one with wisdom needs the warriors, so that is the theme throughout the whole movie. Any questions or comments?

In this movie, Abel dies and he is not resurrected, but he has done his job. He has connected Neo to the door that will lead him to the Source which will save Zion. It is more like Rachel dying as she gave birth to Benjamin. It is my understanding of the Doctrine of Christ that Abel does not die, he stays in the third center, but Abel is the vehicle by which Christ is grafted into the human being.

In other words, if a male sperm enters into a woman that has no eggs, or if her eggs are barren, or they are atrophied, the male sperm has no power. It is my understanding now of the Doctrine of Christ that Abel remains in his position in the third energy center but is raised from the dead and now rules over Cain, while Christ rises to the heart center and rules from the heart center, but this is the movie.

According to the Doctrine of Christ, Christ becomes the only one that you see, even though Abel is still there in the third center. Christ becomes everything. For all intents and purposes, Abel is dead. Of course, this is Hollywood. That is the principle, Abel has done his job. He did what he had to do so that Neo, or Christ in the Doctrine of Christ, could get to the heart center, in this movie could get to the Source.

In both cases, the salvation of the man is at stake when Christ ascends into the heart center. That is when He starts to rule over Satan and Leviathan and the whole vessel of the human being, from the heart center. So, Neo has been catapulted or directed to what would be the equivalent of the heart center, and that is what this is all about. In the movie, Abel is not resurrected. Any questions or comments?

We just turned the film back on, let me tell you what is about to happen now. When Neo goes through that door, he is actually entering into a computer program. He is going to be speaking to a man who calls himself The Architect, the brain that created The Matrix. You are going to see some strange looking things so I am telling you in advance what is happening is that Neo is entering into the computer program to speak to The Architect, the guy who devised the whole thing.

This is going to be a long colloquy, this Architect goes on and on. I probably am going to stop in the middle of this colloquy, because it is very long, and I will need to explain things to you.

We have just listened to the colloquy of The Architect, and now one of the brethren here has a comment after which I will attempt to analyze what The Architect has said, virtually a sentence at a time. We are going to replay it

again, and I will stop it very frequently to make comments, but right now we have a comment from the congregation.

COMMENT: It seems that The Architect put it to Neo to make a choice, either to save Trinity or to save Zion, and he has to contemplate which door he has to open. He has to decide what to do.

PASTOR VITALE: We have another comment here.

COMMENT: Even though he has a choice, The Architect says they already know what he is going to choose. I would like to know what the outcome is.

PASTOR VITALE: I have to tell you that I do not understand that completely, but I have seen the whole movie, and I have seen the third part of the trilogy so I know that The Architect lied to him. Trinity does not die, Neo is the one that dies. The choice that The Architect gave him was an illusion, because it was not on the facts upon which the choice would be based. They were inaccurate.

Apparently, The Architect knew what Neo would choose, which really surprised me that he would choose to save Trinity rather than Zion, because he is supposed to be Messiah. That really surprised me that he did that.

Apparently, The Architect knew that would be the way he would go and wanted him to do that, because the ultimate end of The Architect is the destruction of Zion. I have to tell you that I do not 100% understand that. I am surprised that Neo chose his selfish desire instead of the good of humanity.

Although, what is coming to me now is that all of this is a part of the testing of the Son as he is raised up to be

perfect in Christ. This is one element of selfishness that has not yet been purged out of Neo. He is still very human, he has supernatural powers but is still not perfect in his nature.

Perhaps for that reason, that The Architect knows and even the Merovingian, when Neo was fighting the Merovingian, told his supernatural soldiers, "This is just a man, he is not supernatural." Neo is a type of the believer that has not yet been perfected. We have supernatural power and a lot of wisdom, but we are still very much human in our nature. That is the only thing I can tell you about that now. Maybe more will come to me as we go along.

I find it interesting that The Architect says that "Neo has five predecessors." I am trying to think who the authors could be thinking of. Perhaps Enoch, Moses, Elijah, Noah and unless they are saying that Neo comes after Jesus Christ, they may be saying that Neo comes after Jesus Christ, then Neo would be the sixth time a Savior arose in The Matrix and each time a Savior arises in The Matrix, Zion rises.

What is Zion? It is the city of the rebels, of the humans that are rebelling against the system. I may have it backwards, I may not have it right. No, here it is. Neo is the sixth one. They have already destroyed Zion five or six times. I am sorry I do not have the numbers straight.

This concept of a Savior rebellion keeps rising up in The Matrix, and that is what they call an anomaly. An anomaly is something unexpected, something unknown. Now, The Matrix is a computer program, it is a work of science, it is the fruit of an equation.

We have talked about equations in this ministry what a mathematic equation is. It is a set of symbols or numbers that has two sides to it. One side has to equal the other side, and then the equation is balanced and everything runs

smoothly. An anomaly keeps rising up in this system, something unexpected, a bug in the computer program that causes problems.

That bug, that anomaly, is the nature of man that does not want to be controlled. That is the whole issue, the man will not be controlled. You will see Neo appearing on all of the monitors around him. What that means is The Architect is aware of Neo's unconscious thought, because Neo is standing there calmly, but you see Neo on every monitor screaming, "You will not control me." His unconscious thoughts are revealed to The Architect.

I think that all that I can tell you now is that we are dealing with the imperfect Savior who is not willing to sacrifice his love to save Zion which, of course, is the complete opposite of the Scripture. Anything else right now?

Please note that as Neo goes through the door of light you see what looks like the universe, what looks like the sky with stars in it, looks like outer space. That is a suggestion that Neo is going into another dimension. He is going into the Twilight Zone, actually he is going into a different computer. The suggestion is that this computer is in a higher dimension, and that is why you see the universe.

The Architect says, "You have been processed to a large degree, but you remain human." That is exactly what I was just talking about. That is actually the condition of the believers in the church today that have been processed, that have received Christ.

We are submitting to the exposure of our sin nature, we have been radically changed. Some of us have supernatural powers, supernatural wisdom and knowledge, but we are still so human, and for that reason we continue to

die. This is what The Architect is describing concerning Neo's condition. Is everybody all right?

Neo's life represents the unbalanced equation that I spoke about earlier. Neo has to be dealt with, and the whole rebellious human race that is upsetting the machine world's program, which is The Matrix, has to be dealt with. Neo is the representative of that whole uprising of the independent nature of man.

The Architect is saying that the rebellious nature of mankind is not unexpected, that they know all about it; therefore, they have taken measures to control it. The Architect is suggesting that all Neo has been through from the very beginning has lead him to...in other words, this whole thing has the prophecy of The Oracle. The Architect is saying that the machine world has been in control of Neo the whole time.

Neo thinks he is a Savior, Morpheus thinks he is the Savior, The Oracle thinks he is a Savior, but he is not. The Architect has been in control the whole time. The Architect is suggesting that there has been no choice, he says that we have manipulated everything that has happened to you, and you have done exactly what you were supposed to do, you have wound up here. The reason you are here is so that we can control you and deal with this uprising that is unbalancing the equation which, when the equation is balanced, brings harmony into The Matrix. Is everybody okay?

We have just seen Neo appearing on all of the monitors screaming and yelling, "You cannot control me." This is an indication of the rebellious nature of mankind. Right now, Neo is the example. This is what The Architect is up against. This is the unconscious mind of humanity being revealed on all of these monitors screaming, "You

cannot control me." This is the anomaly that The Architect is dealing with.

The Architect says that the problem is systemic. It means that it is through all of humankind. Then The Architect says, "creating fluctuations in the simplest areas." That means even the simplest humans that do not even think very much, just their human nature is causing fluctuation in the equation of The Matrix because it is human nature to resist control, even if that resistance is unconscious. That is what he is saying.

Neo discovers that the problem is choice. What this means is that it is being revealed that mankind, being dictated to, raises up the potential for rebellion. Even when we are raising a child, we know that we have to do the best we can to not crush the child's spirit while they are being taught and controlled by the parent.

This is the principle of the movie. Mankind is rebellious to the point that Zion keeps rising up, the warfare keeps rising up, because humanity is responding to the radical type of control. They are being deprived of a choice, like when you are raising a child you will....let us say if you are trying to teach the child to eat healthy foods, and you want them to eat whole wheat bread, you might say to them, "Would you like a whole wheat muffin or whole wheat toast?" As long as the child believes that he/she has some degree of choice he/she will tend to be cooperative. This is the issue.

Mankind, this anomaly, has risen in The Matrix because mankind has been deprived of choice so the rebellious potential in mankind has risen up to its highest point in response to the control of The Architect.

We just heard The Fluctuation describe The Oracle. He described her as the mother of The Matrix. The Fluctuation described her as an intuitive program that found a solution to the problem because she was doing research into human nature. The Architect had based The Matrix on the premise of the perfect human being, and The Matrix failed because man is not perfect.

The Oracle, who investigated into the psychology of humanity and realized that man was not perfect, found a program that was 99% successful. Neo guessed who The Architect was talking about. Neo said, "You mean The Oracle?" They are talking about The Oracle. The Fluctuation said, "Please." I am asking you if there is anyone here that knows why The Fluctuation responded like that, "Please." What did that mean?

COMMENT: It seemed like he was saying, "Do not tell me that. That is not true." When he said, "Please," he said it in such a way.

PASTOR VITALE: In a sarcastic way? Actually, you are close, but not exactly accurate.

There is obviously a competition between The Fluctuation and The Oracle. The Fluctuation was discounting the name Oracle. In other words, the name of The Oracle is a name of respect. It is a name that suggests that the woman who was The Oracle has all the knowledge. The Fluctuation was saying, "Do not tell me she is The Oracle, she is just an intuitive program that happened to stumble upon this information. Do not make her more important than she is."

I believe that, in the context of the Scripture, The Fluctuation signifies Leviathan, and The Oracle signifies

Adam. The competition is between Adam and Leviathan. Adam eventually destroys Leviathan.

Now earlier, I told you that the Oracle typifies Jehovah. It appears to me that some of the characters, depending on their place in the story, typify different Scriptural characters. I believed The Oracle typifies Jehovah, because of the Asian man, I do not think he comes on the scene....oh yes, he was in the second part of the trilogy. The Asian man that defends The Oracle, his name is Seraph. The Seraphim guard the Mercy Seat where Jehovah meets us.

In that context, The Oracle is Jehovah, but from this context the competition is between The Architect and the Oracle. The Oracle is now Adam who will ultimate defeat The Architect, who will ultimately defeat Leviathan. That is where they are in this context.

"So please do not make her any more bigger than she is, she is just an intuitive program that accidentally found this information out." That is what this was all about.

Where we are picking up now, we find out what it was that The Oracle had discovered. She discovered that when you stop dictating to human beings, when you stop tyrannizing them, if you give them that choice you can control them.

The Architect goes on to say that even though The Oracle discovers the program whereby 99% of humanity accepted The Matrix, that 1% was enough of a problem that, if left unchecked, would escalate and bring the destruction of The Matrix. Therefore, Zion has to be destroyed. We see that Neo is the sixth Savior. The previous five Saviors failed, and Zion was destroyed five times.

The Architect is telling Neo, "We will do it again. You are an anomaly. You are the 1%, and we will wipe you out, and we will wipe Zion out."

The Architect tells Neo that the function of The One, now remember, The Architect is saying, "We raised you up. We raised you up. You think that you are the Savior of Zion, but we are responsible for your every existence and your function is to return to the source and disseminate your code." Disseminate means to sow a seed, to spread your code into the Source (and I do not fully understand this), which will balance the equation. That is the bottom line.

Neo's function as Savior is to return to the Source. That is the significant word.

Neo is told his function is to return to the Source and disseminate his code into the mainframe which will re-balance the equation. Then he will be allowed to select men and women to start Zion all over again, but a Zion that will be under control. Of course, it is a similar takeoff on Noah. He is going to be selecting however many number he needs to be on the ark and start a new world that will be under control.

It is still not clear here, but Neo is supposed to dissolve himself into the mainframe to balance the unbalanced equation and destroy the rebellious Zion, and birth a new Zion that will submit to The Matrix. Here, we see the concept of Noah and the ark, the wiping out of the world before the flood.

Neo has to dissolve himself in the mainframe which will re-institute the basic program. The program is now unbalanced. When Neo dissolves himself in the mainframe, in the Source, the program will be balanced again. If Neo refuses to do this, Zion will be destroyed and the whole

Matrix will be destroyed. There will be like a cataclysmic system crash. Everyone will be destroyed, and Neo will be responsible for the death of all of humanity. That is what he is being told right now.

It seems to me that Neo does not believe The Architect. It is not that he is choosing to save Trinity and let the whole of mankind be destroyed. I think that he does not believe The Architect, and he is probably right in not believing him. Actually, he is right in not believing him.

I do not know what would have happened if Neo would have walked through the door that would have saved Zion, I do not know. I know that he walked through the door that The Architect says will not save Zion, and at the end of the trilogy Neo saves Zion. Obviously, The Architect was lying to him.

Apparently, I was wrong. Neo did believe The Architect, but he put his personal love for Trinity ahead of saving the world. We have seen the acting scene of Trinity being shot and Neo catching her from her deep fall, pulling the bullet out of her. Neo saved Trinity who died anyway, and Neo raised Trinity from the dead. Now, we did see that Neo did believe The Architect, and he is telling the other members of the ship that Zion is going to be destroyed, and there is nothing that can be done about it.

Now, we see Morpheus saying, "I do not understand it, everything was done as it was supposed to be done in accordance with the prophecy." In accordance with the prophecy, the war is supposed to be over. Neo found the door, the Key Maker sent him to the door. He walked through the door and, according to the prophecy, the war should be over, but the war is not over. Morpheus is losing faith.

We see that is analogous to the first coming of the Lord Jesus Christ. People saying that the prophecy is being fulfilled. Jesus Christ appeared in the earth, He was resurrected out of death, He was crucified, everything was done according to the Scripture, and there is still no peace on earth. The warfare with the powers and principalities of this world has not ceased. It says in the King James Translation, "Where is His coming? We are waiting and waiting and surely we must have missed it. Either God has failed us or we have misunderstood God."

We see that the prophecy was not completely understood, because the end of it was not Neo walking through that door and talking to The Architect. There are other stages to go through. Maybe the Jew would have believed that Jesus was Messiah if the prophesies would have come to pass. Peace would be on earth, and the warfare would end. That did not happen so the Jew cannot believe that Jesus was Messiah. That is the principle right here.

Also, we see that Neo is believing The Architect, Neo the Savior has believed the voice of Leviathan rather than the word of prophecy which supposedly comes from the Lord.

This is so common for believers that have a high call on their lives. They are deceived by Leviathan, and why are they deceived? Because they do not understand the plan. When you have a knowledge of God's plan Leviathan will not be able to deceive you.

Neo can only see as he takes each step. He cannot see, and this is Morpheus right now, he cannot see the end of the vision. It looks disappointing, it looks like God failed, we failed, or they failed, or some such thing.

This is a very important message for the Sons of God. You have to keep the faith and believe that if something looks to you as if it is going wrong, you are lacking understanding, and you should ask the Lord to give you the understanding that you are lacking that will help you to stay in the faith.

Once again, we see that The Architect was Leviathan and he lied to Neo. He convinced Neo that The Oracle was not who she said she was, that the prophecy was false, that Zion would be destroyed, and that there was nothing that they could do about it. Of course, Neo going through the door that saved Trinity is the exact opposite of what Christ did. Christ gave up everything so that we could live. Please note that difference here in the movie.

Now, we see Neo, Morpheus, and Trinity running from the machines that were just blowing up their ship. Suddenly, Neo has spiritual discernment or a spiritual connection with the machines. He turns around, holds his hand up to resist them, and he blows the machines up. Then Neo collapses.

What is happening is Neo is still changing, he is becoming the mediator, half man and half machine. That is The One that can overcome all, when he is of both ilks. We see that Neo collapsed here. I think that the movie is almost at an end because Part Three, the third movie of the trilogy, starts with Neo completely unconscious on the table.

We will find out what happened to him in the next movie which is "Matrix Revolutions." I think there is a little more on this so we will watch. The movie has just ended, and we see that there is just one survivor from Zion. The machines attacked Zion, and I do not know if they destroyed the city or not. Yes, they destroyed the city, and there were

a few survivors. There was one survivor from the city who is the incarnated Agent.

One last comment, the commander of the armies' name is Lock. Initially, I thought, "What a strange name," but I believe that Lock represents the lock. We were speaking earlier about the lock and the key. We see that the spiritual people in the movie are the key, and the one who does not believe, the one who is the commander of the armies, he is the lock.

Eventually, you will see in Part Three how the two need each other and how they wind up together saving the whole world. Not only saving humanity but saving the machine world, because an illegal program has risen up that is consuming both humanity and the machine world. It is the merging together of the two worlds that destroys the rouge program and saves the world.

We will see that, Lord willing, in Part Three when the Lord lets us do that. I did not mean Part Three of this message, I meant Part Three of this trilogy. If the Lord lets us do that, we will do that next week.

One other thing I would like to point out to you is that Leviathan is Satan's biggest weapon and is making us believe that what God tells us is not true. The Architect, who typifies Leviathan, almost destroyed Neo and stopped him from doing what he was supposed to do by lying to him and by effectively getting him to believe him. Neo has given up and was expecting Zion to be destroyed.

What was Neo supposed to do? Neo was supposed to go to machine city and become the mediator between the two races but because Neo believed that The Architect was the end of the line, he was waiting for Zion to be destroyed. He

would have never gotten to machine city if he did not realize this. That is the next movie, I will not tell you about that.

That is the point. Leviathan is Satan's biggest weapon against the believers to cause them to have doubt and unbelief in what the Lord has told them. God bless you.
